RECOMMENDED

1. Recommended for exhibitors to test and guarantee their heifer is negative for BVD-PI. (This would be more appealing to a buyer at the sale.)
2. Exhibitors are recommended to choose a fall of 2017 born beef (no dairy and polled) female that is weaned in spring of 2018 and gain approx. 1.5 to 2 lbs per day (do NOT overfeed heifers).

*Grand and reserve replacement heifers will be chosen. The remaining heifers will sell in order of how judge places them and they will sell per head.

**If any of the requirements are not met at final

weigh-in, you may show in the replacement heifer show but you cannot sell your heifer in the junior livestock sale.

***We want to offer a high quality replacement female to the buyers.
